

Admiral II[®]

DC MOTOR BELT DRIVE GARAGE DOOR OPENER

Powerful Yet Ultra Quiet

Raynor Admiral II offers the quiet reliability of a belt driven opener combined with battery backup. Even when the power is out, Raynor Admiral II continues working. Equipped with Battery Backup, Raynor Admiral II operates up to 40 cycles within a 24-hour period and recharges automatically when the power comes back on. The quiet, DC belt drive system offers variable speed and soft start/soft stop technology, in addition to audible signal notification when the power goes out. Raynor Admiral II features two, one hundred watt bulb ports and comes with a lifetime motor and belt warranty.

MyQ[®]

MyQ technology enables you to securely monitor and control your garage door opener with your smartphone, tablet or computer. Alerts can be received as email or pop-up (push) notifications on your mobile device so that you always know the status of your garage door. The Internet Gateway is required to make your Admiral II MyQ ready. MyQ mobile app is a free download requiring no annual activation fee.

Battery Backup

The Admiral II comes equipped with a battery backup that powers up even when the power is down allowing you to get in your garage during power outages.

Security+ 2.0[™]

Security+2.0 safeguards your household, with every click a new code is sent to the garage door opener so that the door opens only for you. PosiLock[®] locks down your door by electronically monitoring against a forced opening.

Premium Series

Safety, Security and Performance

Alert-2-Close

Warning system provides audible and visual warnings when the garage door is about to close when using MyQ technology or Timer-to-Close.

Timer-to-Close

Remembers to close your garage door when you forget. With timer-to-close your door automatically closes after a pre-programmed number of minutes.

DC Motor

The DC Motor belt drive system is powerful yet ultra quiet, not to mention maintenance free.

Energy Efficient

Operation consumes up to 75% less power in standby mode.

Standard Accessories

Smart Control Panel® (880 LM)

The Smart Control Panel makes it easy for you to program remote controls and MyQ devices as well as adjust settings with intuitive menu-driven format and LCD display.

3-Button Remote Control (893 RGX)

This powerful multi-door control can operate 3 garage doors, gates or MyQ-enabled lighting accessories. Plus, multi-frequency Security+ 2.0™ technology virtually eliminates interference. The Admiral II comes standard with 1 remote. Additional remotes are available.

Protector System® Photo Eyes

Project an invisible beam across the door opening. If any object breaks the light beam while closing, the door will stop and reverse direction to full open position.

Optional Accessories

Internet Gateway MyQ (828 LM)

Required to connect your MyQ-enabled garage door opener and accessories to the Internet. Internet Gateway MyQ allows you to monitor and operate your garage door opener or gate operator, or turn on or off lights in or around your home, from anywhere in the world by using your smart-phone or computer. It utilizes a two-way communication system that puts freedom and control in your hands.

Max Keyless Entry (877 MGX)

Opens and closes your door when you enter a 4-digit code. Enter a temporary code that allows guests and service people temporary access with a specific number of activations for a chosen length of time.

HomeLink® Compatible (855 LM)

The in-vehicle universal remote control. The HomeLink System may require the HomeLink Repeater Kit on some vehicle makes and models. Please contact Raynor Customer Service for details.

Garage and Gate Monitor (829 LM)

Enables you to monitor and close up to four garage doors or gates from any room in your house.

Visit your Raynor Dealer for additional options and accessories.
