

Airman™

1/2 HP BELT DRIVE GARAGE DOOR OPENER

For Quiet and Durable Performance

Driven by a powerful 1/2 HP belt drive motor, the Airman provides quiet reliable performance. Designed for those who want an excellent combination of value and functionality, plus the everyday dependability of a Raynor residential opener, the Raynor Airman has all the tools it needs to get the job done. With a four year motor and 10 year belt warranty, you are assured maximum performance day-in and day-out.

Sensing Technology

With sensing technology your door will stop closing if contact is made with a person or object.

100-Watt Lighting

Opener light turns on automatically when the safety infrared beam is broken.

Security+

Be sure your garage is safe from intruders. Rolling code technology assures a new code is sent every time the remote control is used.

Standard Series

Safety, Security and Performance

Sensing Technology

The Airman's sensing technology is designed to keep you safe. If contact is made with a person or object while the door is closing, the door will stop, helping to prevent any injury.

Posilock®

Ensures the door remains securely locked when it is closed.

1/2 HP Motor + Belt Drive

A 1/2 HP motor and enhanced belt drive provide quiet and durable performance.

Standard Accessories

Multi-Function Control Panel (78 RGD)

The multi-function control panel controls not only your garage door but also turns your opener lights on/off from inside the garage. For security, it locks out radio signals while you're away and includes an adjustable light timer. Never push the wrong button with the illuminated oversized push button.

1-Button Remote Control (371 RGD)

The one button remote control selects a new code from over a billion possibilities with every use. This feature makes it virtually impossible for burglars to capture your transmitter code.

Protector System® Photo Eyes

Project an invisible beam across the door opening. If any object breaks the light beam while closing, the door will stop and reverse direction to full open position.

Optional Accessories

3-Button Mini Remote Control (890 RGX)

This powerful multi-door control can operate 3 garage doors, gates or MyQ-enabled lighting accessories. Plus, multi-frequency Security+ 2.0™ technology virtually eliminates interference.

HomeLink® Compatible (855 LM)

The in-vehicle universal remote control. The HomeLink System may require the HomeLink Repeater Kit on some vehicle makes and models. Please contact Raynor Customer Service for details.

Max Keyless Entry (877 MGX)

Opens and closes your door when you enter a 4-digit code. Enter a temporary code that allows guests and service people temporary access with a specific number of activations for a chosen length of time.

Visit your Raynor Dealer for additional options and accessories.
